• This Method of Treatment is based on the only correct principle by which a thorough and radical cure of Catarrh, etc., can be effected. It is a mild and yet powerfully Anti-Septic healing balm, applied directly to the effected parts, and thus the virus and disease germs are destroyed, all irritation and inflammation removed, and the diseased surface healed more effectually and speedily than can be done by any other method. This is the plain, practical, common sense way of treating and curing Catarrh, and it is the only way in which it can be done. We have been endeavoring for several years to perfect arrangements by which this splendid remedy could be added to our price list, and we are now enabled to offer the

RUSSIAN ROSE BALM

to our Agents, Friends, and the General Public, with full assurance and confidence that it is the Very Best and surest Method for Home Treatment for Catarrh, etc., that has ever been devised or discovered. The fact that it is used and endorsed by some of the best Physicians of New York City, is sufficient evidence of its superiority and great curative value.

CATARRH—WHAT IS IT?

The term Catarrh is of Greek origin, and means "a flow down," and, as the disease is accompanied by a profuse discharge from the head, it was called Catarrh.

The disease usually begins as a common cold in the head, with a free discharge from the nose, the symptoms of which are too well known to require any mention here.
